

BSI dealers can offer a wide range of services and products in their assigned territory.

SERVICES

The BSI business strategy includes various services to offer to a multimillion battery replacement market. Our services include :

- Battery regeneration
- Maintenance
- Treatment
- Diagnostics
- Recycling
- Removal & dismantling
- Merchandising

Each BSI dealer can receive on site training and technical support from the corporate office until they are capable to operate the dealer independently. We are here to serve.

Become a successful battery dealer today. Just call us or visit our websites for more information:

BSI MISSION

To create, develop, and support successful Battery Services International dealers that recover, restore, and recycle all types of batteries to reduce waste and pollution. We are committed to a customer-focused approach and teamwork strategies that support fair and respectful dealings with all of our stakeholders.

OUR VALUES

Battery Services International is a values-driven enterprise. As such we take great pride in embracing the following ethical tenets:

- Honesty in all dealings
- Excellence in all endeavors
- Due diligence as guide to fair play
- Interdependence as teamwork
- Passion for our mission

BSI Dealer

SAFE

Battery Services International (BSI) offers a proven, safe business strategy that has been tested in the field for years. You can visit us to experience our technology and business success.

We offer a turnkey business solution in an emerging market of over US\$50 billion with 6% annual growth. The BSI business solution will guide you through each development phase from beginning to end. A BSI business consultant can visit you to personally train you on all business processes.

You don't have to guess. The process and business strategies have been carefully selected to guide you to success.

Technical support is always available from BSI Corporate office. We want each BSI dealer to be successful. This is why we work hard on risk management by strengthening each BSI dealership capabilities. We are here to service all.

RELIABLE

When you join BSI, you will receive professional and reliable guidance as you launch your business. BSI has developed a complete strategy to train you on:

- Reducing risk
- Cutting capital expenditures
- Improving profit gain
- Customer service
- Marketing strategy
- BSI battery regeneration process
- BSI business strategy

We have developed a business opportunity that is for all: big or small investors. This is why we created the following six business opportunities:

- Start Up Dealer
- Industrial Dealer
- Automotive Dealer
- Master Industrial
- Master Automotive
- Corporate Dealership

Each opportunity represents a safe and reliable money making business in the rich battery replacement market.

GUARANTEED

BSI guarantees that in twelve months or less you get back every penny you invested if you follow our business strategy and use our technology correctly. We know that our battery business model work because we done it first and perfected every aspect of the business model to ensure that gives success to you also.

Each BSI dealer is independently owned and operated by a licensed dealer. Each dealer is supported by the BSI corporate office to:

- Be successful
- Be profitable.

We guarantee you success in a market with virtually no competition. Each BSI dealer operates in an assigned territory. No other BSI post can operate in your territory. On site training is available in addition to telephone coaching, and manuals that guides. The BSI opportunity is safe, reliable, and guaranteed!
